Did you know?

- A STIG Collaboration project is on SoftwareForge.mil
- <https://software.forge.mil/sf/go/proj2530>

What is available?

- Discussion Forums

Forum Summary			
<input type="checkbox"/>	Forum Name	Topics	Posts
<input type="checkbox"/>	MacOS This discussion is for stigs related to the Macintosh OS Stigs	0	0
<input type="checkbox"/>	Beta - Stig Applicability Guide This is the beta version of our upcoming Stig Applicability Guide. Test, review, and comment in this discussion	2	3
<input type="checkbox"/>	YouTube video suggestions We are asking the community to comment on what youtube video they would like us to create related to the stig viewer product. Our first one was where to find it on IASE, download, install, and load the stigs. https://www.youtube.com/watch?v=LdBfJZ7aK9w	1	1
<input type="checkbox"/>	Windows Server 2016 STIG PowerShell scripts PowerShell DSC is a native facility within Microsoft Windows to define and enforce configurations. This package provides PowerShell DSC configurations that implement most of the Windows Server 2016 STIG. While the content has been tested during development, all possible system and environmental factors could not be tested. Before using this content in a production environment, please perform testing with the intended settings in your own test environment. There is no mandate to use this content; it is published as a resource to assist in the application of security guidance to your systems. Use it in the manner and to the extent that it assists with this goal.	1	1
